

JANA HATASOVA

WEB DEVELOPER

[+44 7482 990191](tel:+447482990191) | hatasova.j@gmail.com | [LinkedIn](#) | [Portfolio](#)

SKILLS

- React
- JavaScript
- TypeScript
- Next.js
- Unit testing
- Storybook
- MUI library
- State management
- AWS
- SEO
- Accessibility
- Performance

WORK EXPERIENCE

Web Developer

Havas Faze | 07/2022 - 11/2025

- **Reduced development time** by building a scalable, multilingual white-label clinical trial recruitment website with configurable questionnaire and form submission and a reusable component library.
Tech: Next.js, TypeScript, MDX, SCSS Modules, Storybook, Figma Tokens
- **Contributed to the development of an internal clinical trial recruitment system** with multiple user roles and permission levels, powered by our in-house API.
Tech: React, TypeScript, MUI, Redux, React Testing Library
- **Prototyped an internal multilingual email-campaign builder** to improve development efficiency and review process; initiative was recognised though paused due to client priorities.
Tech: JavaScript, MJML, Express.js, Node.js
- **Collaborated with designers to establish a unified design system** using Figma tokens, improving visual consistency and reducing handoff and dev time.
- **Other:** Peer code reviews, project ownership, technical documentation, Agile ways of working
- Adapted quickly to new technologies, incorporating AI tools like **GitHub Copilot** into daily development and exploring **Figma MCP** to support building a scalable design system.
- Actively expanding cloud and DevOps knowledge, currently working towards **AWS Cloud Practitioner** exam and contributing to **DevOps** tasks such as updating GitLab pipeline scripts.

Junior Web Developer

Havas Lynx | 08/2021-06/2022

- Contributed to several static website projects built with React, improving UI/UX and accessibility.
- Developed campaign emails using MJML and Foundation, and created web ad banners.
- Contributed to a meeting-room scheduling dashboard using Microsoft Graph API and React.

ABOUT ME

I'm a Web Developer with 4+ years of experience building scalable, user-focused applications, specialising in reusable component libraries, design systems, and performant interfaces that bridge design and engineering. I focus on performance, UI/UX, SEO, accessibility, and writing clean, readable, reusable code. I'm a strong team player who values collaboration and strives for high-quality results, and while my core strength is Front End development, I'm increasingly interested in expanding my Back End and DevOps skills.
